O H STOCKING, Esq (Trinity College) Hartford Ct—"By using it my hair turned from a sandy to a brown color—it was naturally dry, but it is now moist."
A F WOOD Chemist, New Haven Ct—"I saw a fair head of very dark hair on a man who six weeks ago was bald. He had used nothing but your Rosemary."
"Revere House Boston July, 1857. I had no more hair on my head than an infant, seven months ago. It is now thick, healthy, growing rapidly and of a fine, dark color. I can positively say that J RUSSELL SPALDING'S Rosemary has produced this change.

Letter from Washington.

The Passage of the French Spoliation Bill in the Senate—Senator Fessenden and the Republican Party—Malevolent Falsehood of the Union's correspondent—the Maine delegation a unit—Mr. Washburn's Speech.

WASHINGTON, Jan. 12.

Legislation is not progressing very rapidly Forming our opinions, upon the acts of Congress within the last few years, the public may have reason to rejoice at what is not, rather than what is done by that body.

One measure, however, of much importance to the people of Maine, you will have noticed, has received the favorable action of the Senate. I refer to the bill which provides for a partial indemnity to those who suffered from spoliations upon our commerce, by France, prior to 1800. It is said the bill will be likely to receive favorable action in the House. If so, and it shall receive the approval of the President, as it is said it will, it will carry joy and gladness to the homes and hearts of many in Maine. A more just claim was never presented to Congress, and it should have long since been paid. Let us hope that justice so long delayed, may now at least be done. The prospect looks favorable, and I trust those directly interested will not again be doomed to disappointment.

I notice a malicious and vile assault in the Bangor Union, upon Senator Fessenden, for it can be viewed in no other light. I need hardly tell you that the whole thing is an unqualified and unmitigated falsehood, without the semblance or shadow of truth. It is the work of a vile tool of the Administration who is well known here, and to you.

He represents that at some meeting, which existed only in his brain, "Senator Fessenden advocated the enlargement of the party bounds so as to include everybody who would vote the ticket,—principles going for nothing."

More falsehood could not be compressed into the same space. I know that no such meeting was ever held and that Mr. Fessenden neither entertains nor ever did entertain or express any such opinions as are attributed to him. Nor is it more true, as alleged by the same correspondent, that there is any diversity of opinion in the Maine delegation upon the principles of the Republican party or the course that should be pursued. All this, too, is the work of a corrupt heart, false in all its parts.

The Maine delegation, as I happen to know, are united in opinion and harmonious in action. Not one of them is disposed to abandon principle for expediency. They are all unitedly and earnestly in favor of maintaining the integrity of the Republican party, upon its known principles. If any step is to be taken by them, it will be in advance—not to recede in any case. I think I can say that the speech of your able and faithful Representative in the House (Mr Washburn) meets the approval of the whole delegation.

The assault upon Mr. Fessenden was undoubtedly designed and intended to create unpleasantness, and perhaps to prejudice him in the minds of the Legislators of Maine. But if so the viper has only bit on a file, as Mr. F. is this day receiving the congratulations of his friends on the above action, to which I was an invited, and which the Legislature have so generously conferred, without the formality of a caucus. VISITOR.

A RACE BETWEEN STATES.—In 1836 two young States were admitted into the constellation of the Union. Michigan, whose half the extent of territory of Arkansas, challenged her sister State for a twenty years' race, and named as her rider, "No free slavery nor involuntary servitude, unless for the punishment of crime, shall ever be tolerated in this State." Arkansas accepted the challenge, and named as her rider—"The General Assembly shall have no power to pass a law for the emancipation of slaves without the consent of the owners." It was mounted these two States, the one free and the other slave, started together twenty years ago, and now, having arrived at the end of the proposed race, let us review and mark the progress of each. Michigan comes well in 1858 with three times the population of slave Arkansas, with five times the assessed value of farms, farming implements and machinery, and with eight times the number of public schools. The North American has gone into the Dry Dock at the Portsmouth Navy Yard, for repairs.

A story is told of a doctor in the goodly town of B not a hundred miles from Vermont. The doctor kept missing his wood, and set watch. As was expected, it proved to be the work of a near neighbor, who soon appeared, and carefully culling out all dry wood, started off with an armful. The doctor hastily gathered up an armful of green wood and followed tugging as fast as he could, and just as the man threw down his armful, the doctor did the same, exclaiming, "There, you must burn green wood part of the time—I have to," and departed, leaving the thief to his own reflections.

The Union Coal and Oil Company, of Marysville, Ky., have agreed to further certain parties in Boston with 2 000 gallons of the crude oil per day, during the next two years, at 33½ cents per gallon.—*N. Y. Com.*

THE PROPOSED SUBMARINE TELEGRAPH FROM NOVA SCOTIA TO BOSTON.—On Thursday last a report was made on this subject by a committee of the business men of Boston appointed to consider the proposition of the Nova Scotia Telegraph Company, and of Mr R N Gisborne, for connecting Cape Ann with Yarmouth N S, by a submarine cable, and thence by existing land routes to Halifax. The report recommends the project to the support of the Boston merchants, although some of the members of the committee and merchants present protested against recommending anybody to invest money in the scheme.

The committee reported that English parties have offered to provide and lay down the cable, and warrant it to work for three months, for £40,000 sterling; and that an American company has offered to do it for $148,000. Mr Carroll, of the committee, believed however, that before they got through with it it would require an investment of twelve or fifteen hundred thousand dollars. The Nova Scotia Company has thought was worth nothing without further great outlay. The committee recommended that a committee be appointed to obtain subscriptions on the condition that no subscription shall be binding until the whole amount subscribed shall reach the sum of two hundred thousand dollars, and that said committee be also charged with the duty of petitioning the Legislature of Massachusetts for an act of incorporation for a company.

THE NARROW ESCAPE OF THE NORTH AMERICAN.—A correspondent of the Boston Journal says: It will be recollected that this steamer was ashore at Cape Race, by which accident she was obliged to put in to Halifax. One of her passengers has furnished me with the following statement. He says that she struck at about eight o'clock in the evening, when it was so clear that Cape Race light could be seen a distance of three miles. She run head on, breaking her jib-boom, bowsprit, and smashing in her bows to her bulkhead. Had she run one or two feet further she must have filled and sunk, and agood the public would have shuddered at the loss of several hundred souls. He further states that the passengers were obliged to work at the pumps for hours, and during this time no refreshments were offered them, and quite a number became so exasperated at the neglect that they refused to pump longer.

FIRE IN BOSTON.—A destructive fire occurred in Federal Street on Thursday morning—by which $30,000 worth of property was lost. The building burned was one of the new and elegant granite warehouses, Nos. 54 and 56, occupied on the first floor by Mr Charles C Nichols, dealer in fancy and dry goods, and in the upper stories by the Cheopes Manufacturing Company as a warehouse and salesroom for their goods.

GODEY'S LADY'S BOOK for February is received. It fully maintains the high reputation of the publisher for enterprise and ability.—The number contains two splendid steel plate engravings, sixty other engravings, with ten full length figures in fashion plates—and 100 pages of varied useful and entertaining matter. The terms are very low for a magazine of this class.

A Kansas correspondent of a New York paper says, under date of December 14th,—Everything is quiet now, and it is conceded that Montgomery has conquerred. You will recollect that "the boss of contention" was, whether those settlers who took an active part in driving off the Free State settlers in 1856, should be allowed to stay in the territory or not. Mitchell is the affirmative, and Montgomery in the negative.

THE VOICE OF THE PEOPLE.—When Mr Douglas was notified of his re-election to the United States Senate, he telegraphed back to the Illinois State Register: "Let the voice of the people rule." This inspired the editor of the Chicago Press and Tribune to make an investigation, resulting according to the following statement:

"We have been at the trouble of footing up the vote of the State for Representatives in the Legislature—giving Mr Douglas the entire vote polled in several districts where there were no Republican candidates—and we find it to stand:

For Abraham Lincoln	124 975
For Stephen A Douglas	120 782
Majority for Abraham Lincoln	4,191

A young man named Ransom Gladding, at Plantsville, Conn., tested the power of endurance of cold by walking in the open air from 9 o'clock Monday night till sunrise Tuesday morning, without an overcoat. The feat was performed on a wager, and successfully accomplished without being touched by frost.

DISMEMBERMENT OF THEODORE PARKER'S SOCIETY.—The Courier states that the society over which Theodore Parker has so long presided has disbanded, and given up the Music Hall which they have here before used on the Sabbath; the illness and departure of Mr Parker for the South is the cause of this movement.

A Philadelphian, who is enthusiastic in weather matters, on Monday night made preparations to note the state of the atmosphere by putting the thermometer under his pillow and hanging his gold watch on a hook outside his dormitory window, where it was discovered at an early hour in the morning by a watchman, who rang the bell and advised the absent-minded Meriamite to take his watch in or it would get stolen.

The Bangor Union knows that we shall publish Mr Washburn's recent speech, and that the speech is a very able one and every way satisfactory to the Republicans. The weak demonstration of the editor in Saturday's Union is therefore as ridiculous as it is impudent.

A Cincinnatian German, named Christopher Strisbarger, in St Louis, hung himself for love, a short time since, leaving behind him a letter saying that his body might be forwarded as a Christmas present to the fair maiden who refused to favor his suit.

"Much remains unsung," remarked a Tomcat, as a brick bat cut short his serenade.

LOCAL AND MAINE NEWS.

THE CONCERT THIS WEEK.—The concert to be given by the Bangor Cornet Band, and by some of our amateur vocalists is announced for Thursday evening the 21st inst, as will be seen by advertisement. According to the arrangements which have been made, and the programme promised, the entertainment will be one of the most attractive of the kind which has been given in the city. The Band itself has had a faithful training and diligent practice upon their new and superior instruments, and are well qualified to please a discriminating audience; and the vocalists, numbering more than sixty, represent the best musical talent in the city. Altogether it will be an entertainment by home talent such as has not before been offered, and of a character that will undoubtedly draw a full house.

After the Concert is closed, Norombega will be open for a social dance to those who may desire to remain—a moderate admission fee in addition being of course expected.

MRS AND MR PAUNCEFORT'S READINGS Saturday evening were well attended. The City Hall was nearly filled by a most intelligent audience, who seemed gratified with the performances. Mrs Pauncefort read for a whole hour with unwearied interest. Her manner at the desk or on the stage is good, her pronunciation and expression excellent. As a reader she is superior, while her exquisite acting in the "Morning Call" spoke all the better in contrast with the amusing over-acting of her visitor.

THE BARK OAKLAND.—This vessel, whose destruction by fire at sea off the Irish coast, occasioned by lightning, was reported in the late gn news, was built in Bath [as we learn from the Times of that city] in 1857, by Lemont, Forsaith & Hall, registered 599 tons, was owned by Adam Lemont of Brunswick and others, and was commanded by Capt. Adam Hunter of Topsham. She was part ally insured in the offices in Bath, and doubtless had more insured in Brunswick and elsewhere.—The Oakland was twenty-eight days out from Charleston for Liverpool with a cargo of cotton.

FARMERS' CONVENTION IN HANCOCK.—Mr A. M. Holden, Sec'y of the Hancock Agricultural Society, gives notice in the Ellsworth American that at the meeting of Oct 13th it was agreed to hold a Convention of the farmers of Hancock County at Hinckhill, on Wednesday, the 26th day of January 1859; at which time the report of the Delegates to the Board of Agriculture will be made—after which the subject of farms and farming will be the order of the day. The Convention will meet at Hinckhill on Wednesday, the 26th inst, at 1½ o'clock A M.

Hon Charles Jarvis having been invited to lecture at Ellsworth upon the subject of the Mount Vernon Purchase, declines, with much regret, on account of the situation of his family.

The obsequies of Mr Charles Davidson of Portland, were attended with great demonstrations of respect on Thursday last, as we learn from the Advertiser. During the day the flags of the various engine companies were displayed at half mast, as well as those of the various ex-companies, some of which were draped in mourning. On the City Hall, and the New City Buildings, the flags were also displayed at half mast. The members and past members of the Fire Department assembled at City Hall, filling it to repletion. Chief Engineer, S H Leavitt called the meeting to order, and resolutions were read by F C Moody Esq, chairman of a committee chosen to prepare them at a meeting of the Fire Department, and accepted. Mayor Jewett seconded the motion of acceptance, and paid a fitting tribute to the character of the deceased.

After the passing of the Resolutions, a procession was formed, which proceeded to the Federal St Church. The entire lower part of the church was filled with the friends of the deceased and the members and ex members of the Department, and the galleries and aisles were thronged and a great concourse of people attended the remains to the Eastern Cemetery.

TWO MEN MISSING.—On Sunday last, scow Sarah Quimby, loaded with wood, manned by Jas. Harriman and Moses Atwood, left Buckport for Prospect for Rockland. On Monday the scow was found by a citizen of Dix's Island, aground and abandoned. No tidings had been heard from the men at Buckport as late as Saturday, (says the Times) and it is supposed that they perished from the extreme cold of Monday. Mr Harriman had a wife but no children; Mr Atwood was married a second time but a few days ago.

We learn that Charles T Mellen Esq. has been appointed Post Master at Patten, vice Samuel R Carter, resigned. Capt Carter has received the appointment of Chief Clerk, to the Naval Store Keeper, at Portsmouth, N H, and will enter upon his duties in a few days. *Portland Adv.*

The High School building at Augusta was slightly damaged by fire on Monday afternoon.

The Portsmouth, N H, Chronicle of the 12th says: "We are that a large schooner, apparently of 150 tons, said to belong to Rockland, went ashore at Odiorne's Point, Rye, on Monday morning. The people on board supposed themselves out to sea, but being deceived by the storm which covered the ocean, found themselves among unknown rocks from which they knew not how to escape."

SUDDEN DEATH.—Mr Joseph Ayer of this city died very suddenly at his residence on Thursday. Mr Ayer had not enjoyed good health for a number of years, but has usually attended to his business. This morning he arose apparently in his usual health, but while doing some chores around his house he was suddenly taken ill and laid down; when he expired before a physician could be called.—*State of Maine.*

ADVERTISING.—Discontinuing to advertise is like taking down one's sign. It is a sort of announcement of retirement from business, and the public treat it as such. Or they may regard it as evidence that something has gone wrong, which requires privacy for investigation. Whatever construction is put upon it the result is disastrous.—*Exchange.*

We see it stated that the Androscoggin & Kennebec Railroad Company intend to disregard the decree of the Railroad Commissioners, that no train for Bangor shall leave Kendall's Mill's before ten minutes past five o'clock P. M. The A. & K. trains now leave that place before five o'clock, and, it is said, they will continue to run as heretofore, and to appeal to the full bench of the Supreme Court. If the constitutionality of the law appointing the commissioners is affirmed, the company intend to bring a writ of error to carry the case up to the U. S. Supreme Court.—*Argus.*

John G. Saxe has just spun a new ballad, called "The Jolly Mariner". It commences thus:

It was a jolly mariner
As ever bore a log;
His worse his trousers wide and free
And always ate his pork,
And blessed his eyes, in sailor-wise,
And never skirked his grog.

Up spoke this jolly mariner,
While at walking up and down;—
"The briny sea has pickled me,
And done me very brown:
But here I goes, in these here clo'es,
A-cruising in the town!

While on his excursion,

He met a lady in her hoops,
And then she heard him hail;
"How blow me tight!—but there's a sight,
To manage in a gale!
I never saw so small a craft
With such a spread of sail!

Observe the craft before and aft,—
She'd make a pretty prize!"
And then, in that improper way,
He spoke about his eyes,
That mariners are wont to use,
In anger or surprise.

Opinion of the prominent Druggists of Cincinnati.

We, the undersigned, druggists of this city, have been acquainted with, and sold for a year or two past, an article of Family Medicine known as Perry Davis' Vegetable Pain Killer, and we would assure the public that in every instance, so far as we know, it has given the best satisfaction to the purchaser. We can recommend it to the public as an article

OF GREAT MERIT AND VIRTUE

Indeed, we never knew an article of Medicine become so deservedly popular in so short a time, which is proved by the fact of its extensive sale, and constantly increasing demand.

Dear Sirs—I became your agent without feeling any interest in the medicine, but I soon became very much interested upon seeing the happy effect it had upon many persons. The increased sales in this state are truly astonishing. I might have collected any number of certificates of its great power in relieving pain, if I had attended to it at the time the cures came under my observation. The least I can say for the Pain Killer is, that it fully answers the purpose for which it is recommended.

WASHINGTON, 16th.

Senate not in session.

House.—Mr Foster of Me, asked but failed to receive consent to introduce a bill authorizing the Postmaster General to contract to carry the mail between Bangor and Halifax by railroad.

The bill extending the patent for seven years to James G Holmes for an improvement in chairs for invalids was passed by 108 against 57

At the instance of Mr Stephens of Ga, the consideration of the motion to commit the French Spoliation Bill reported at the last session of the Committee of the Whole on the state of the Union, was postponed till Feb 1st, the day on which the similar bill recently passed by the Senate. The House then took up the private calender.

On motion of Mr Winslow of N C, a resolution was adopted calling on the Sec'y of the Navy for information generally concerning the navy yards, the object being to facilitate the business before the Naval Committee.

On motion of Mr Howard of Mich, it was resolved that the Naval Committee report what legislation is necessary to reduce the expenses of the navy and whether any yards and docks can be abandoned. The House then went into Committee of the Whole in the bill to modify the revenue laws.

Mr Comins of Mass, while not approving all the details of the bill would give it his support on broad national grounds it being important not only to the navigation but all the transportation interests of the country.

Mr Giddings gave notice of an amendment to abolish the traffic in slaves to which the country in the treaty negotiated with Great Britain in 1814 is commuted. He said, will gentlemen countenance the traffic in human flesh and involve the nation in the guilt of perjury.

Mr Smith of Virginia—What do you think of the cooley trade and the French traffic in Africans?

Mr G —I think it is to be said as the possessor of slave trade. It it was to sell the gentleman and his wife and children, I should object—(laughter)

Mr Smith—I suggest whether it would not be well to comment on the interesting fact, that 55 vessels in the free States are engaged in the slave trade and only 5 in the Southern, before he undertakes to reform the morals of his neighbors.

Mr G —I would as soon lay my hands on a Northern as a Southern pirate. I am not sectional in my views (laughter.)

In the course of his remarks he said, if he should be nominated for Governor of Ohio, he wanted to make a straightout issue with the democratic party. He wished to know from his colleague, Mr. Cox, whether the latter party was for or against the slave trade?

Mr Cox rose to pay his respects to his colleague for a few moments, and a crowd gathered around him. He said Mr Giddings knew that the democratic members of the former session voted that it was inexpedient and unjust to restore the African slave-trade, and that dem crats north and south are opposed to it

Mr G. remarked that he had alluded to the committee navy trade.

Mr Cox resumed, and said that Giddings had undertaken to place democrats in a false position, and inculcated the idea that the democratic party was pro slavery, when he knew that it was neither pro nor anti-slavery, but placed itself on the doctrine of leaving the people to regulate the matter as they may think proper. He hoped his colleague may be nominated for the Governorship of Ohio, and when the election was over the latter would be left to ponder over the result, and exclaim with Aristides, "I yield to popular opinion in everything, even when the people drive me into exile, (laughter.) His colleague made negro equality in his speech the other day, but in his printed speech modified his language.

Mr Giddings remarked that his colleague misunderstood him.

Mr Cox—Are you in favor of negroes in Ohio voting?

Mr G —I expressed no such opinion.—(Laughter)

Mr C —Would you permit them to vote?

Mr G —I would whenever negroes excel the Democratic party in intellect and moral virtue. (Excessive laughter)

Mr C —My colleague does not come up to his doctrine. Is he or not in favor of African equality or negro suffrage in Ohio?

Mr G —I would put them and the Democrats on the same footing. (laughter) but I will not interfere in the quarrel between them

Mr C.—The difference between my age and that of my friend, if I may so call him, will not allow me to put him to the torture because I cannot be elected Governor of Ohio In saying all I wished to do was to put the Democratic party to right, and it is right. The gentleman can come on with his forces and we will meet him

Mr Stanton of Ohio, wanted to ask Mr Cox a question.

Mr Houston of Ala, objected. The House had had enough of this.

There was much confusion during the proceedings, everybody being evidently interested in the dialogue

Mr John Cochrane in closing the general debate on the bill, said he did not anticipate they would embark on the sea of abolitionism and slavery discussion simply on a question of commerce and codification of commercial law. He proceeded to answer the objections to and advocate the passage of the bill

The Committee rose and the House adjourned.

WASHINGTON, Jan 16.

A caucus of Democratic Senators was held yesterday, on the President's recommendation, in reference to Cuba. A debate of three or four hours in length ensued, involving the question whether any steps should be taken in relation to it; and if so, in what character, according to the best attainable information.—Mr Mason made the opening speech, and was followed by Messrs Hunter and Shields.—Though favorable to the acquisition of Cuba, they thought action at this time impolitic and calculated to impair rather than to improve our prospects to that end.

Mr Douglas regarded the appearances as gloomy, but would support Mr Slidell's bill, placing in the hands of the President $30,000,000 to be used in negotiating. He expressed the belief that the President would not endorse this measure without sufficient data to justify him in so doing. Mr Douglas has long desired the acquisition of Cuba. In his judgment there was but one mode, and that was on the happening of another case similar to that of the Black Warrior, to seize the Island by way of reclamation and negotiate afterwards.

Mr Davis and others did not look to the acquisition of Cuba.

The discussion at this stage became interesting; the best ability of the participants therein being put forth. Mr Slidell of course advocated his own. Messrs Davis, Toombs, Owen, Bigler and Clay favored the idea of increasing to a sufficient extent the foreign intercourse fund, leaving the matter to the discretion of the President as in previous cases.

Mr Iverson thought Spain could be wearied with the question of Cuba by a repeal of such parts of our laws as restrain the action of our citizens to arm foreign powers, or something to that effect. The determination of the Caucus was, with a few exceptions, to favor the recommendation of the President, although the propriety of making a which it should be measured was not to hastily indicated, but the probability is that the Senate will pass Mr Slidell's bill. Out of it have been issued from the War Department similar to those which were sent to Kansas pending the former troubles, namely, of sending four or five companies of troops now there as a posse comitatus to enforce the laws during the present disturbances in that territory.

According to report when the Senate French Spoliation Bill which is now on the Speaker's table shall be taken up in the House for reference no effort will be made to pass it by a suspension of the rules, but under the operation of the previous question.

NEW YORK, 16th.

Herald Washington Correspondence.—A caucus of the Democratic Senators was held to-day in which it was determined that the Committee on Foreign Relations should report a bill similar to that presented a few days since by Mr S idell authorizing the President to purchase Cuba and placing $30,000,000 at his disposal towards that object. It was agreed that the Democratic Senators might vote as they choose when the bill should be brought up. This was for the purpose of accommodating the abstractions of several Southern Senators as all the Northern Democrats would vote for it. The House Committee on Foreign Relations have also resolved to bring in a similar bill.

RIGHTS OF MARRIED WOMEN—AND THEIR WILLS OF EACH MEN.—The Cleveland Herald makes the following very just commentz upon the rights of married women

"Talk about a man having a right to do what he will with his own! A husband's property is not his own. The wife is as much entitled to it as he is. She, not directly, at least indirectly, has been as influential in accumulating that property as the husband has, and certainly has had it to her power, had she so chosen, to have kept him a beggar all his life. If the words of cheer, when the horizon looks dark, if the words of caution, when speculation is rife; if the words of hope, when calamity comes, if the word of prudence, when prosperity smiles, could be measured by dollars or cents, every husband would lay the bulk of his fortune at the feet of his wife as an act of mere justice for her instrumentality in shaping his pecuniary destiny. It is downright cruelty to provide in profusion for a wife's wants during coverture, and—through thoughtlessness or recklessness—leave her at the husband's death in poverty. It is the height of meanness in a man who dies rich, to attempt to hamper his widow so that she shall not have an abundance, and have it too, absolutely her own, to do with it what she sees fit. Married women have too few 'rights' while their husbands are living, and assuredly husbands should not seek to reach out of their graves to control their widows"

Cobbet was a man of ready wit, and very keen at repartee. The name of "Peter Porcupine" was a nom assumed one. He published a paper called "the Porcupine," having a large cut of that interesting animal at its head, and the imprint announced that it was published by "Peter Porcupine, Esq." He kept a book and stationary store, also, and one day, a stranger attracted by curiosity to see a man of such notoriety, stepped into the store, and, for an excuse for so doing bought a bunch of quills. Having paid for them, he still lingered, unwilling to leave without some conversation with Cobbett. So, he remarked to him, "I suppose, sir, that these are Porcupine's quills" "No, sir," Cobbett instantly replied, "they were Porcupine's quills, but now they are goose quills.—*Worcester Spy.*

ESCAPE OF A FORGER.—Some time since an individual named Abraham J Dey, alias Jackson, committed a series of forgeries to the amount of $40,000 on parties in the State of Maine, on part of which he realized and made his escape from the State. Information was afterward received that the culprit was living in the State of Missouri in considerable ease and comfort, and armed with an executive requisition, three officers from Maine started to effect his arrest and succeeded in their endeavor. On their way home, however, the prisoner seems to have pulled considerable wool over the eyes of his captors, and such a good understanding existed all around that Day was left without much surveillance, and when the parties arrived in this city on Wednesday night, the prisoner was in one end of a long car, and the officers were taking their ease at the other. Strange to say when the latter got out of the car the former was not to be seen, and has not since been heard from, and the Maine officers, after bringing their prisoner so many hundred miles on his way, are now anxiously looking for him to complete their journey.—*Boston Journal.*

Dr. Wistar's Balsam of Wild Cherry!

Has reached a popularity unknown in the annals of medicine; that is by means of its safe, rapidity and certainty with which it cures the worst forms of Coughs, Colds, Incipient Consumption, Croup, Whooping Cough, Pleasure of the Throat and Lungs, Spitting of Blood, Pleurisy, Soreness, and all complaints of the Breast.

Dr. Wistar's Balsam of Wild Cherry!

Let all remember that a slight cough, if neglected, soon in Consumption I and though the Balsam has in numerous well attested instances cured the first mentioned and longer and dread disease after the symptoms had assumed one of the most formidable and apparently incurable forms of disease it happens under its influence in the majority of cases.

Dr. Wistar's Balsam of Wild Cherry!

The superiority and excellence of the remedy for the cure of the above-named diseases is beyond all cavil. Try it, you sufferer, and add one more to the innumerable witnesses in favor.

Aroostook Railroad.

At the meeting held in Bangor upon the return of the Editorial corps from Aroostook to determine the best mode of accomplishing the enterprise of constructing a railroad to that county a committee was appointed, consisting of Elijah L Hamlin Wm A Blake Isaiah Stetson, R S Prescott, Samuel Larrabee Wm H Mills, and Abrah m Woodard authorized to receive such propositions as might be offered and make such disposition of the subject as in their opinion might the most certainly ensure the great object of the meeting

The BOSTMRR Co who already own a road thirteen miles in length embracing a bridge at Oldtown across the Penobscot river, with depots furniture and appurtenances of a good road, have made to said committee the following proposition which on their part they are ready to perform, if accepted

The said Company propose that the State shall loan their credit, to a reasonable amount, to build a road from Mattawamkeag to some practicable point in Aroostook county or instead thereof, to appropriate the public lands or the proceeds thereof for that purpose In case of the latter course being determined on, the following plan is proposed to make the sum available to that end The lands shall be put at the price of 25 cents per acre, with the condition that if the railroad is built the purchaser shall pay 50 cen s per acre instead of 25

In order to ensure fairness in the distribution, every town in the State shall be allowed to take proportion of the lands according to its ratio of inhabitants paying Hereafter at such time from one to twenty five years, as the Legislature may determine, with interest annually The Treasurer may be authorized by the town or they may sustain their right to do so to such of their citizens or others as they may see fit If nothing one year the next does not elect to take the lands thus falling to their share, the Governor and Council may sell them or cause to such person or corporation on such conditions and for such price and terms as they may think proper, the right of selling any of said lands in all cases to be subject to the limits for that no lands suitable for settlement shall be sold to any but actual settlers The several towns to be authorized to purchase such lands and to hold or sell the same, and to loan the proceeds thereof, not exceeding $500 to any one person, if families, as they may choose, so that no two settlers to actual settlers if their citizens in a body in the new territory, they shall have the power to do so on whatever terms they may think proper

After the town has elected by vote to take the lands, and notified the Land Agent thereof the selectmen, or such other person as the town may authorize, may issue scrip or warrants, which now or they please certificate that the bearer is entitled to a number of acres specified therein, and Land Agent or warrant shall entitle the bearer to a deed from said Agent of the number of acres specified upon performance of such act as the scrip or warrant may prescribe to secure the settlement upon lands to be selected from the body of the public lands not then actually appropriated or taken up In this way all parts of the State will be made equally the recipients of the munificence, and its citizens in all parts have an equal chance to gain a home in the favorite lands thus thrown open for settlement

The public lands thus appropriated for the purpose of extending the road from Mattawamkeag to Aroostook, are regarded by the Company as ample security for the building and equipping of that portion of the whole road, a mortgage also retained upon the road and equipments to secure any further expense in the matter Contracts for building and equipping the road to be made with the Governor and Council and they are to have the general superintendence of the whole work The fee of the whole road is to be in the State, subject only to the road

The road from Mattawamkeag to Aroostook being thus provided for it is proposed to build and equip the road from Milford to Mattawamkeag and Brownsville by individual subscriptions aided by a pledge of the credit of the City of Bangor for a sum not to exceed $ in any one year

After the state shall have appropriated the lands as aforesaid, to build the road to the Matta wamkeag to Aroostook the Company undertaking to build the road shall enter into agreement with the Governor and Council, empowering them to construct and equip the road to Mattawamkeag and Brownsville in consideration of the appropriation of the lands and the issue of their bonds to the amount of their credit loans the same not to exceed $ 000 per mile to the road to be built by them &c., the City to secure the title of the road thus to be built with all the necessary and appurtenances thereof and also as against its security, to have the property thus acquired with the Governor and Council, for which to be held by the City until the sale lands paid and the bonds satisfied

Either of the several railroad Companies already chartered viz—the Western Penobscot & Kennebec, North American & European Penobscot, Bangor Calais & Maine Railroad Companies to have the privilege of taking the said contract and building said roads on their own terms do the same for the least sum and to be required security as aforesaid

In order to ensure fairness in the distribution, every town in the State shall be allowed to take proportion of the lands according to its ratio of inhabitants paying Hereafter at such time from one to twenty five years, as the Legislature may determine, with interest annually The Treasurer may be authorized by the town or they may sustain their right to do so to such of their citizens or others as they may see fit If nothing one year the next does not elect to take the lands thus falling to their share, the Governor and Council may sell them or cause to such person or corporation on such conditions and for such price and terms as they may think proper, the right of selling any of said lands in all cases to be subject to the limits for that no lands suitable for settlement shall be sold to any but actual settlers The several towns to be authorized to purchase such lands and to hold or sell the same, and to loan the proceeds thereof, not exceeding $500 to any one person, if families, as they may choose, so that no two settlers to actual settlers if their citizens in a body in the new territory, they shall have the power to do so on whatever terms they may think proper

LINCOLN'S WATER PROOF BLACKING,

AND LEATHER PRESERVATIVE.

Keep your feet dry and you will seldom need a Physician.

Is it not a truth that when the feet are often wet it is one of the greatest causes of colds and consumption? Is it a truth that when leather is often wet and dried, it soon becomes hard, stiff, and cracks, but when it is water-proof this is remedied. By the application of this preservative, it remains soft, and entirely impervious to water.

After being engaged for 25 years in the manufacture of leather in all its branches, and being often troubled with wet feet myself, I was led to experimenting on different compositions, and found it easy to make it water-proof, but at the same time extremely injurious to the leather. At last by a chemical process, I discovered a preparation which perfectly harmonizes with the astringent properties with which leather is tanned It will not only make leather water proof, but it like wise softens the leather, and it will

Positively wear twice as long.

I have now used it for three years, and a large part of that time have worked in a wet Tannery with my boots constantly in water, and have not had my feet wet during that time I can therefore in all confidence recommend it to the public as the best article in the market

BEE.

THE LUXURY AND PROFIT OF HONEY MAKING.

Torrey's Bee Hive.

THE, subscriber, having purchased the right of making and selling *Davis' Patent Bee Hive* for the Counties of Penobscot, Lincoln and Sagadahoc, which has been received with so much favor, and taken the first premiums wherever exhibited, has introduced an improvement into the Bee Hive and is now prepared to make the same in connection with the Davis Platform, and to sell rights to towns and individuals

This Bee Hive, thus improved, is admitted by persons acquainted with the honey-making Canadian to be superior to every thing yet invented for the purpose. It covers all the requisitions for the profitable maintenance of the apiary, by providing for ventilation at all seasons of the year—room for the exercise and feed of the bees—conveniences for the removal of excrement, for the proper separation of the swarms, and generally for the health and comfort of the workers

The boxes used in this Hive for storing honey, are the best adapted in their size, for the market, holding from three to six pounds each.

The subscriber wishes to purchase one hundred swarms of bees in exchange for bee hives and individual rights.

For sale, fifty swarms of Bees, with the new hives

Capital $500,000.

A. NICHOLAS, President. Office, 79 Wall-st.

A Perfect Security against all manner of Fraud or Counterfeiting on Paper—To Prevent Photographs and Anastatic Counterfeits, Removes, Transfers or Alterations.

HAVING purchased the Patent for the exclusive right to manufacture and sell the Chemical Paper in America, invented and patented in England by HENRY GLYNN, a celebrated chemist and officer in the British army, it is hardly necessary to say that the Paper is recommended by Mr Kent, Assayer of the U. S. Mint, Mr Lyman of the New York Clearing House, and Meade Brothers, extensive and skilful photographers, 233 Broadway, N. Y. The latter say that no imitation can be made on a check or bank note printed on the Safety Paper. Below is our list of prices:

Bank Checks—35 cts. per lb.
Bank Bills—$18 for 1000 sheets.
Bills of Exchange—$25 for 1000 sheets.
Promissory Notes—40 cts per lb
Sight and Time Drafts—$25 for 1000 sheets
Insurance Policies—40 cts. per lb.
Railroad Stocks and Bonds—40 cts. per lb
Bank and State Stocks—40 cts. per lb.
Bonds and Mortgages—40 cts per lb.
Wills and Deeds—40 cts per lb.

For wrapping Silks and other fine articles it is excellent, as it prevents moths. 40 cts a lb.

For Indentures and Agreements, 40 cts a lb.

All State and County Records should always be printed or written on this paper, as the chemicals inserted in the pulp not only prevents erasure or transfer, but makes it lasting as time.

For Southern climates it is excellent, and much superior to any other, as the moistness of the climate does not destroy it,—the properties inserted in the pulp being a preventive In all the Southern States, Cuba, the West Indies, and the Central American States, no public records can be kept over 20 years, written on the ordinary paper, while the oils and other chemicals inserted in the paper makes it indestructible by the ravages of time. It is also proof against moths, rats and other vermin, which feast on and destroy all other paper now in use

The Company have now in operation Mills in Morris County, N J, of about 300 horse power, and are able to fill all orders for Paper at the shortest notice

All orders for the Paper must be addressed to A NICHOLAS, President of the Company, No. 79 Wall street, New York

The Testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate. The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe render him able, beyond question, to offer superior facilities for obtaining Patents

All necessity of a journey to Washington, to procure a patent, and the usual great delay there are here saved inventors

The Boston Journal

FOR 1859

"The Favorite Paper of New England."

Published Daily, Semi-Weekly and Weekly.

Payment invariably in advance

In announcing the terms for THE JOURNAL for 1859, the proprietor deems it unnecessary to describe its peculiar character—its character as a newspaper, or to make any promises for the future He deems it sufficient to say that

THE BOSTON JOURNAL

has been in the past it will be in the future the most unanimously commended of all the newspapers published throughout New England, and at the head of the New England Press. Its distinguishing qualities which go to make up a first class newspaper, have been and will be sedulously maintained in all respects, and constant attention will be paid to the interests of its readers, to the end that no labor nor money to give the latest, the fullest reports of all matters of interest, and not upon the responsibility of "runners" or "drummers" to get the earliest moment it has become known to the country, and not upon the reports of "correspondents" at "head quarters" in Washington, but upon the regular and trustworthy reports of *three times as large a staff of editors and reporters as any other newspaper in New England*—and it is the determination of the proprietors to keep it steadily increasing. The progressive character of the JOURNAL is shown by the employment of experienced and able men in all the departments of the paper, and by the most liberal outlays in procuring of important news from all parts of the world. The JOURNAL will continue to be, as it has been in the past, a paper for the fireside, which may be read by all the members of the family, without the exclusion of any column, and which contains within itself the means of entertainment and instruction for every one within the circle.

The present year will be one of unusual interest in the political world, and the organization of the new Congress will be fully reported in the JOURNAL. The JOURNAL will also contain a full and complete record of the proceedings of the Legislature of Massachusetts, and will endeavor to make itself in all respects a reliable guide to the people of the State in regard to the character of the legislation of the session.

Orders for either of the papers can be sent to the office of publication, or to any of the agents. Remittances may be made at our risk by mailing bills of any denomination, the amount of which must be invariably paid in advance. Specimen copies will be sent gratuitously to any one who may desire to examine the paper with a view to subscribing.

BOSTON DAILY JOURNAL

Morning and Evening

Contains the latest news received by mail and telegraph up to the hour of publication. It is printed on one of *Hoe's New Patent Printers* at the rate of TWELVE THOUSAND AN HOUR, which enables it to be issued at a very early hour, and contain the latest intelligence up to the very latest moment, and yet it is printed in season for the mails and for delivery to subscribers at their residences. It is published at the low rate of

Six Dollars a year; Single copies two cents.
